

Ihor Tkachuk

Junior Frontend Developer | Kyiv | ihor.tkachuk.dev@example.com | +380 97 214 55 18

Professional Summary

Junior frontend developer with commercial internship experience and strong interest in building clear, responsive interfaces. Comfortable with component-based UI development, API integration, and improving usability in web products.

Core Skills

HTML5, CSS3, JavaScript, React, Vite, REST API, Git, Figma, Responsive Design, Basic TypeScript

Professional Experience

Frontend Intern - BrightSoft Studio | 2024-2025

Built landing pages and dashboard components, connected forms to REST endpoints, fixed UI defects, and supported adaptation for tablet and mobile screens.

Freelance Web Developer | 2023-2024

Created small business websites and admin panels, configured reusable UI blocks, and optimized page layouts for faster loading.

Selected Projects

- Volunteer event dashboard for managing registrations, filters, and participation statuses.
- Fitness landing page in React with adaptive layout, CTA routing, and feedback form submission.
- Internal knowledge base UI with search, tags, and article cards.

Education

Bachelor studies in Computer Science, 2022-2026

Languages

Ukrainian - native, English - Intermediate
